December 9, 2002

To Whom It May Concern:

I am writing this letter of recommendation for MGW Biological Surveys, a biological consulting firm from Arcata, CA. MGW Biological Surveys performed a biological assessment for NOAA on Trinidad Head in Trinidad, CA.

Despite the small job size, MGW Biological Surveys showed professionalism and respect to NOAA throughout the contract. The cost was reasonable, and MGW performed the job efficiently and competently within the tight schedule that we requested.

They were definitely very responsive to our need! I would certainly use the services of MGW Biological Surveys again, and I highly recommend them to those in need of similar services.

Sincerely,

Thanh Minh Trinh, P.E.
